You need a baler that works day in, day out. No baler on the market matches the Freeman side feed baler for performance or longevity. Now, you get all the advantages of the Freeman, in a fully redesigned, self propelled version.

The spacious cab provides unparalleled comfort and visibility, while the powerful and efficient John Deere engine keeps you moving. At the heart of the machine is the Freeman side feed baler, with generations of know-how built in.

Available tail-less knotters keep your field clean of string trimmings. An on-the-go moisture sensor and bale scale provide instant feedback, so you know your bales are just right.

The Freeman self propelled side feed baler. No compromises. *Best in the field.*
