

Rebuilt and Remanufactured Long Reach Attachments

Keep Productivity Up Front with a Factory Rebuild from Long Reach

Have your Long Reach attachment rebuilt at the factory to increase productivity and safety with the lowest total cost of ownership. A factory rebuild includes:

- Complete disassembly and inspection of all components.
- Parts are replaced or repaired to original specifications.
- Magnetic particle inspection of critical welds.
- All components are cleaned and shot-blasted.
- All hoses are replaced. Cylinders and valves are rebuilt or replaced.
- Each attachment is painted, reassembled and tested.
- Three-month factory warranty for parts and labor.

Remanufactured Attachments

We remanufacture Long Reach attachments to the original factory specifications. This means you get like-new performance and durability at up to 60% off the price of a new attachment. Each attachment is factory tested and meets the same quality requirements as our new attachments.

When you choose Long Reach remanufactured attachments, you can expect shorter lead times, lower cost, and like-new performance and durability. To see what we have in stock, check out our inventory at: www.alliedsystems.com/longreach/remanufactured.asp

Looking to trade up? Your used Long Reach attachments may qualify for our buy-back program. Some models may not qualify for buy-back; contact Long Reach to learn more.
