NEW Drivetrain Defender

New Wagner Drivetrain Defender (pn: 589252) is available for existing and new Wagner dozers. Once installed, this unique device defends the drivetrain from over-torque damage that can destroy differentials, gears, axles and driveshafts. The Drivetrain Defender is equipped with shear bolts that are easy to replace (pn: 589846) which saves money in the long run.

Please contact our parts or service department and ask about the new Wagner Drivetrain Defender.
