

# Install Allied Winches on New Holland Dozers Prior to Arrival at Your Store

Allied works closely with CNH to bring you a new winch installation option. As an authorized New Holland dealer, you may now order Allied winches to be installed on New Holland dozers prior to their arrival at your location. Here is how it works:

1. Order your dozer from CNH.
2. Order the matching Allied winch directly from Allied, as follows:
  - Allied H4A winch for New Holland D75B, D85B and D95B
  - Allied H5C winch for New Holland D125C, D150C
  - Allied H6H winch for New Holland D150C, D180C
3. Advise us of your dozer expected delivery time and its tracking number.
4. Allied will ship the winch to Paladin-Chattanooga, the contractor located near the CNH plant in Calhoun, GA. They can also spool the wire rope onto the winch for no extra charge.
5. Allied will bill the installation cost on your winch invoice. In many cases, it could be lower than your current installation cost.
  - Winch freight from Portland to Chattanooga, and installation labor at Paladin ..... \$1,900
  - Dozer freight from Calhoun to Chattanooga ..... \$500
  - Installation of optional fairlead, arch, wire rope ..... No Charge
  - Total freight and installation charge (2014) ..... \$2,400

Your dozer will arrive at your site with the winch already installed and ready to go to work.

It's a worry-free alternative to installing the winch at your facilities. Call us for more details.
