

First in the Field For Years.
Freeman has built the best hay baling equipment available. Rugged construction and dependable operation have made Freeman balers the “best in the field.”

New Freeman Bale Scale

Now, Freeman becomes the “first in the field” with an OEM designed and constructed **bale scale**, built to the same exacting standards as Freeman balers. Easily mounted to any new or existing 3-tie side-feed Freeman baler, the new **bale scale** allows the operator to monitor bale weight in real time, from the cab, with a level of precision never before possible.

- **More Uniform Bales**
- **Improved Efficiency**
- **Reduced Cycle Times**
