

**Let us rebuild your knotter, and get the same legendary reliability that Freeman balers are known for.**

Don't have a Freeman baler, but want the same kind of reliability from your knotter? Let Freeman rebuild your knotter using our parts and strict assembly specifications to get at least 10,000 additional bales before needing to rebuild your knotter. Send your knotter frames to us, and we'll take care of the rest!

**Extend the Life of Your Knotter**

- **Knotter service intervals extended at least 10,000 bales**
- **Bushings and hardened gears extend the life of your knotter frame and components**
- **Compatible with a wide range of baler manufacturers**
- **Send your knotter frames to us and well do the work for you!**
