

## PROTECT & PROLONG THE LIFE OF YOUR TURBOCHARGER

Wagner has a solution to protect and prolong the life of your turbocharger. Our Turbo Temperature Monitor shuts down the engine only after the exhaust has reached a safe temperature, reducing early turbocharger bearing failures.

Features of this kit include:

- You turn off the key, the Turbo Monitor shuts down the engine after it reaches a safe temperature.
- Shuts down the engine based on temperature, not time.
- Adjustable shut down temperature set point.
- Eliminates guessing how long it will take the engine to reach a safe shut down temperature.
- Easily installation.
- Bypass switch & temperature Indicator lights included in kit 590585, but optional to install.

Order your Turbo Temperature Monitor (Allied part number 590585) by calling our Service Parts department at 503.625.2560, or e-mail [parts@alliedsystems.com](mailto:parts@alliedsystems.com).
