

This diagram illustrates the exploded view of a washing machine door assembly. The main view shows the door panel (1) with a black rubber gasket (2) and a white inner frame (1.2). A red circle highlights the hinge area. The inset view provides a detailed look at the hinge mechanism, showing the door panel (1.3) being attached to a metal frame (1.4) using a hinge pin (1.5). A black cable (1.6) is connected to the hinge assembly. A yellow hose (1.7) is also shown. A small white component (1.8) is attached to the hinge. A black cable (1.9) is connected to the hinge. A small white component (1.10) is attached to the hinge.
