

# Caterpillar Partners with Allied

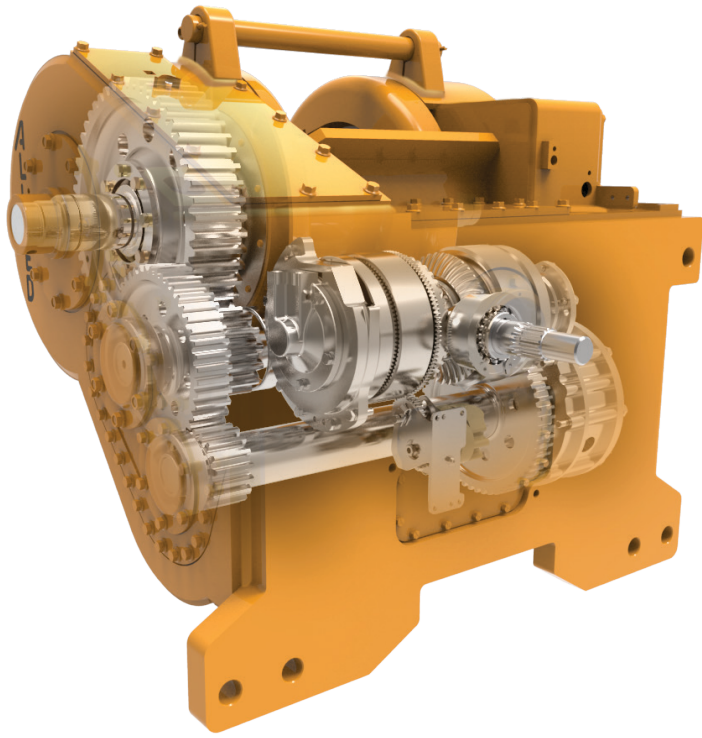

## *The Winch of Choice*

**The Allied W12E Winch has been added to the Caterpillar price list. Now, you can order the W12E directly from Caterpillar, whether you require a winch for your new dozers or need to retrofit your existing dozer.**

The W12E is a Power Take-Off (PTO) powered, electronically controlled winch, providing optimum power and efficiency. The W12E can work under sustained load for long periods without adding excess heat to the tractor hydraulic system. The W12E features a box-section frame to provide excellent strength without restricting visibility to the spool.

The W12E is the only PTO winch available for your D8T, with a power delivery that cannot be matched by any hydraulically powered winch alternative.

## Maximum Power Delivery

PTO delivers maximum HP from the engine

## Fingertip Control

New technology allows for ultra-fine control, like a hydraulic winch, with the incomparable power of a PTO winch

## Versatile

Available with or without fairlead; without fairlead provides unparalleled visibility

## Durable

Fabricated box-section frame and hardened gear train

## Factory Warranty

12 months from date of installation or 18 months from date of shipment

# Specifications

Allied W12E Winch for CAT® D8T

Maximum Line Pull†	Standard Wire Rope	<b>138,800 lbs (62,959 kg)</b>
	High Strength Wire Rope	<b>153,000 lbs (69,400 kg)</b>

		Bare Drum	Full Drum
Line Speed	80,000 lbs Working Load	52 fpm (16 mpm)	78 fpm (24 mpm)
	Maximum Line Speed	59 fpm (18 mpm)	92 fpm (28 mpm)

Weights	Winch	6,100 lbs (2,767 kg)
	Fairlead	1,230 lbs (558 kg)
