

# H6H on D71

**Allied Winch is partnering with Komatsu America to offer the H6H Winch for the newest Komatsu D71 Dozer!**

**The H6H winch is engineered to fit the D71 to provide both exceptional line pull and precision control.**

- Easy "Plug & Play" installation saves you time and money.
- Motor turns only on demand. Less wear and tear, quiet operation.
- Finger tip precision control. Line speeds as fine as 0.5 ft/min.
- Generous angle of departure to allow dozer to drive uphill without the winch frame scraping the ground.
